# How to use it?

## Locking :-

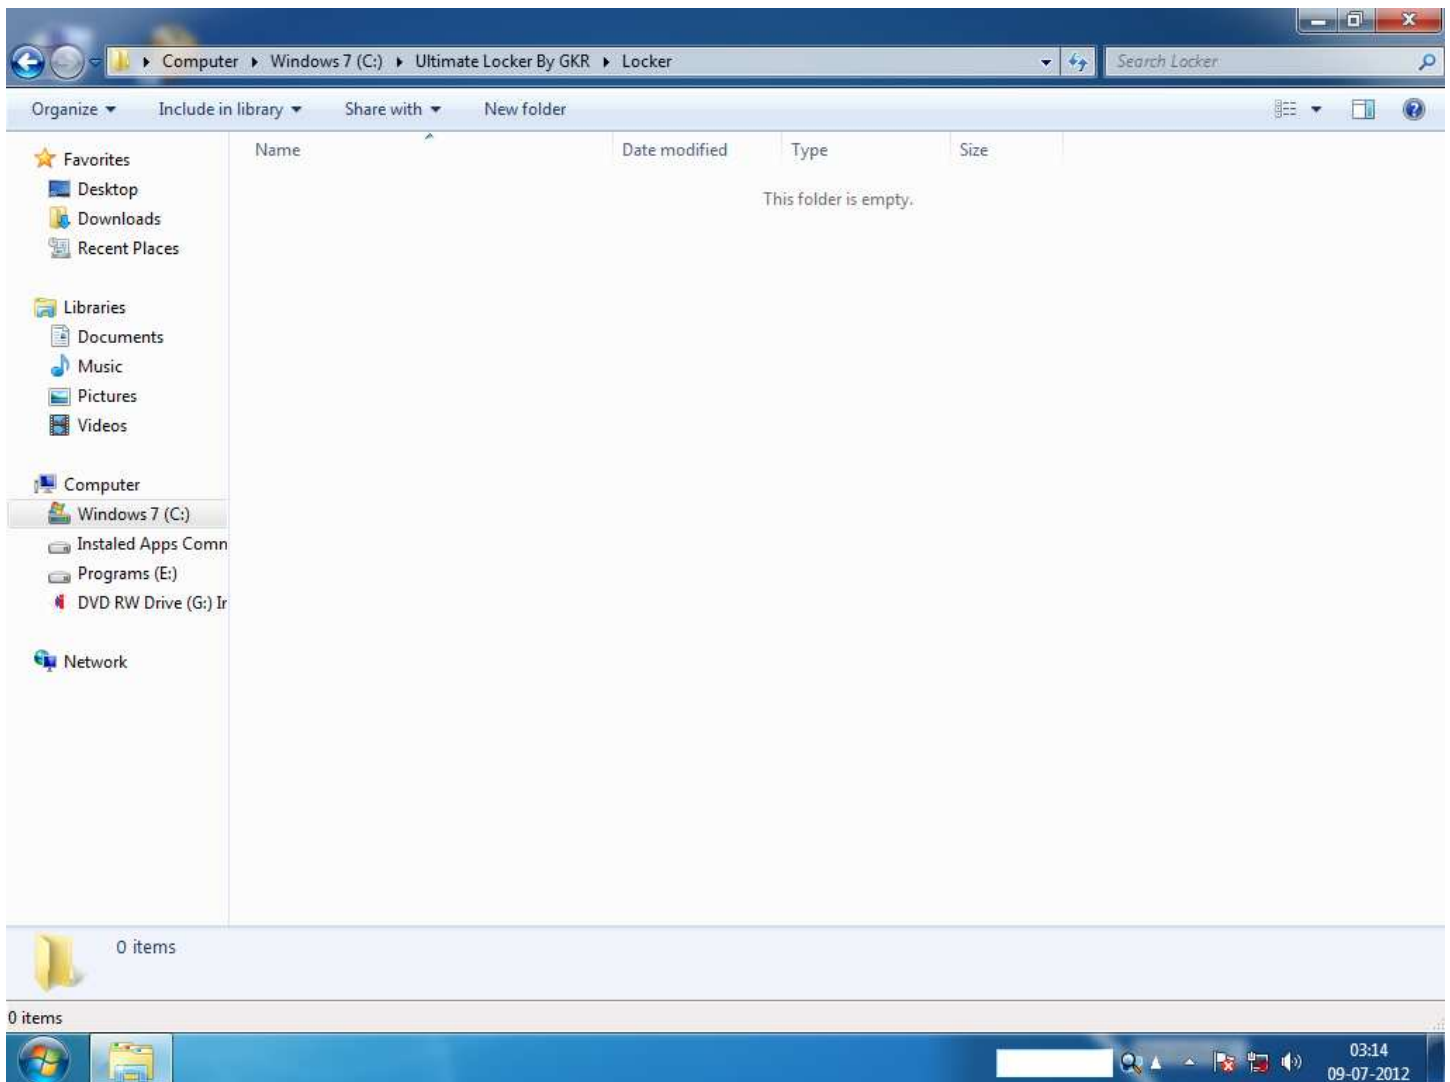

Open the folder containing ultimate locker:-

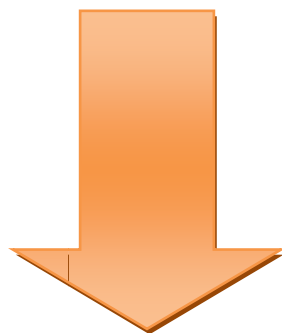

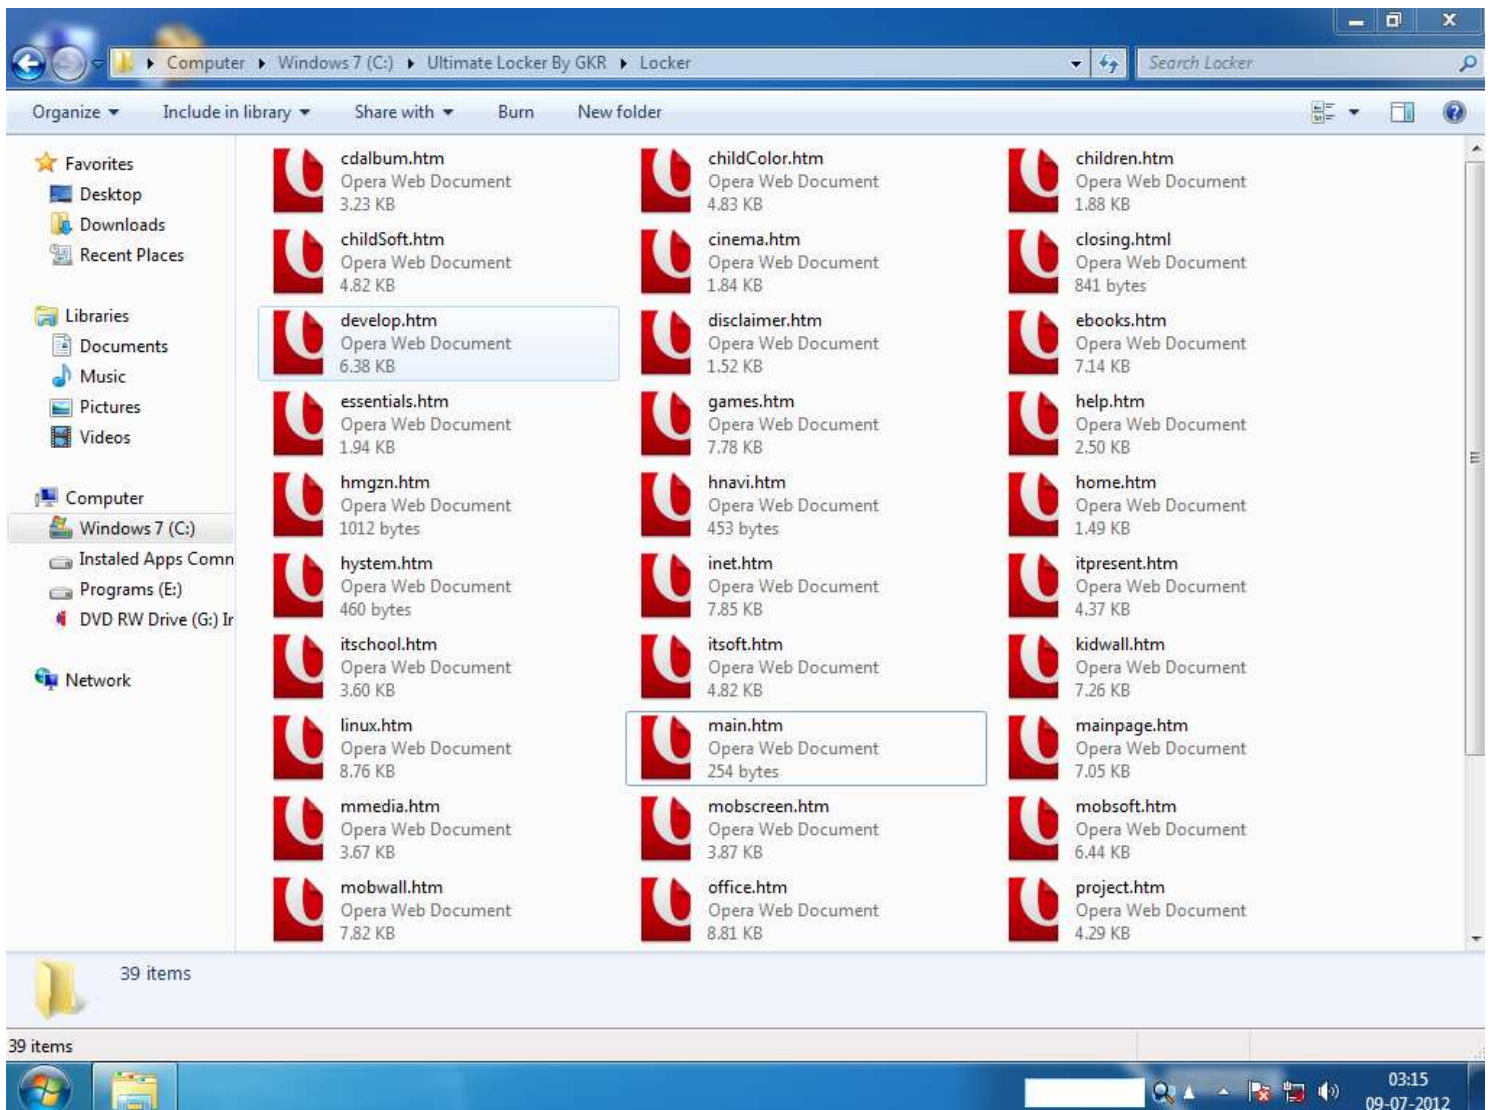

You can see :-

- ✓ Five files
- ✓ A Folder named "Locker"

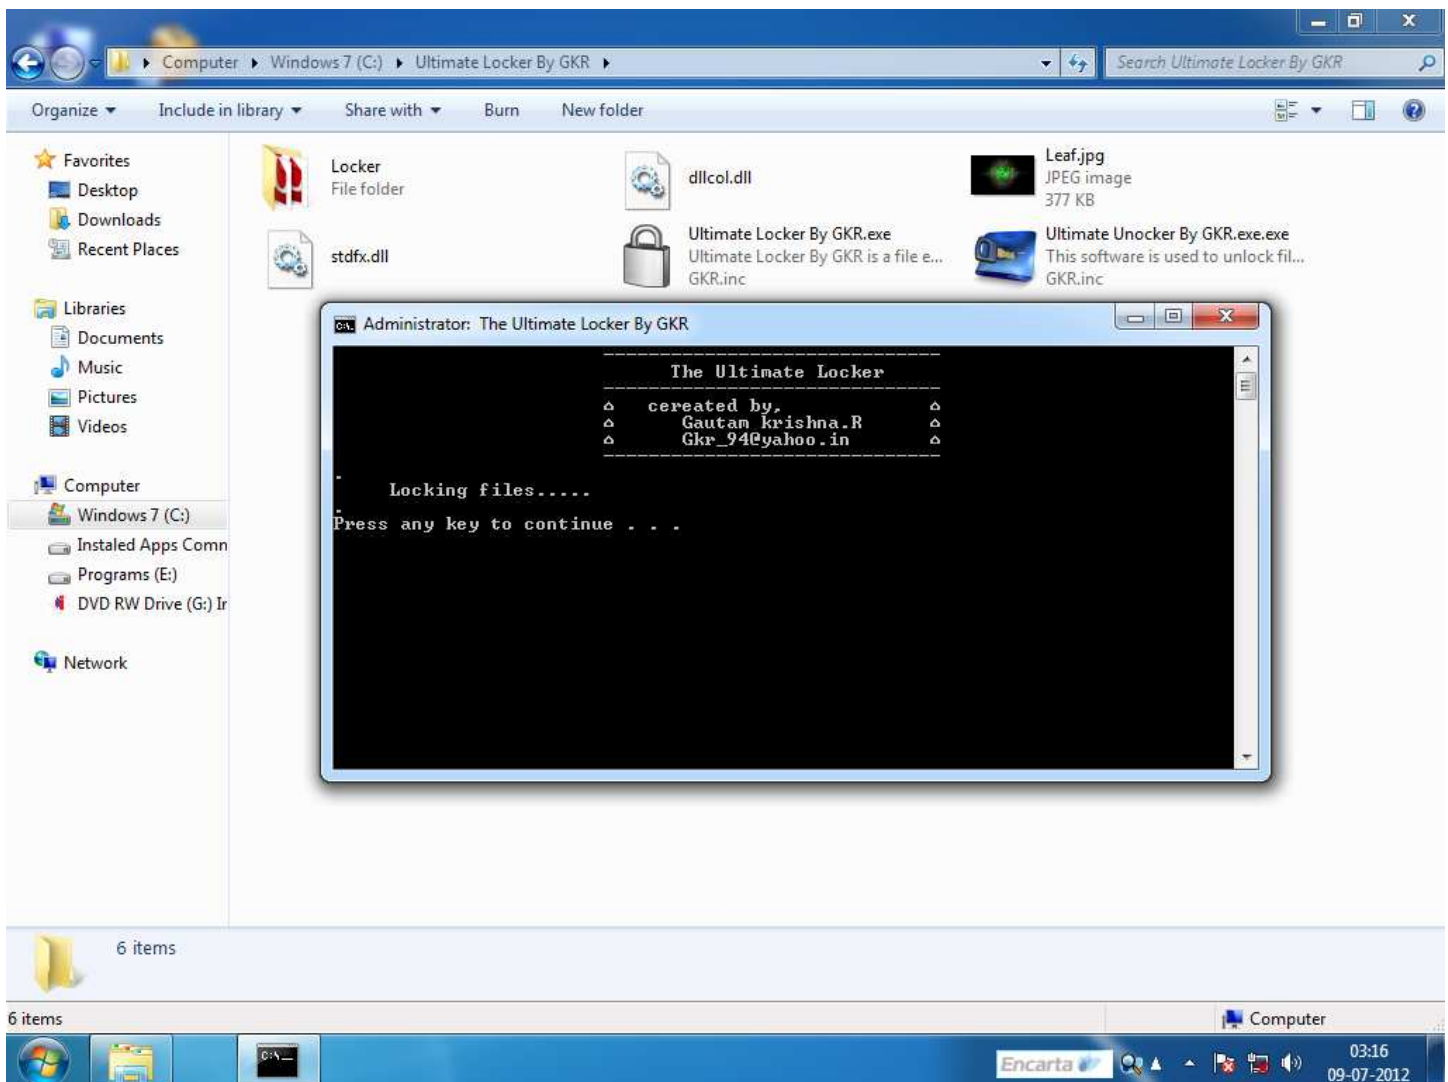

## Open the folder “Locker”:-

Add files you want to lock to the locker folder:-

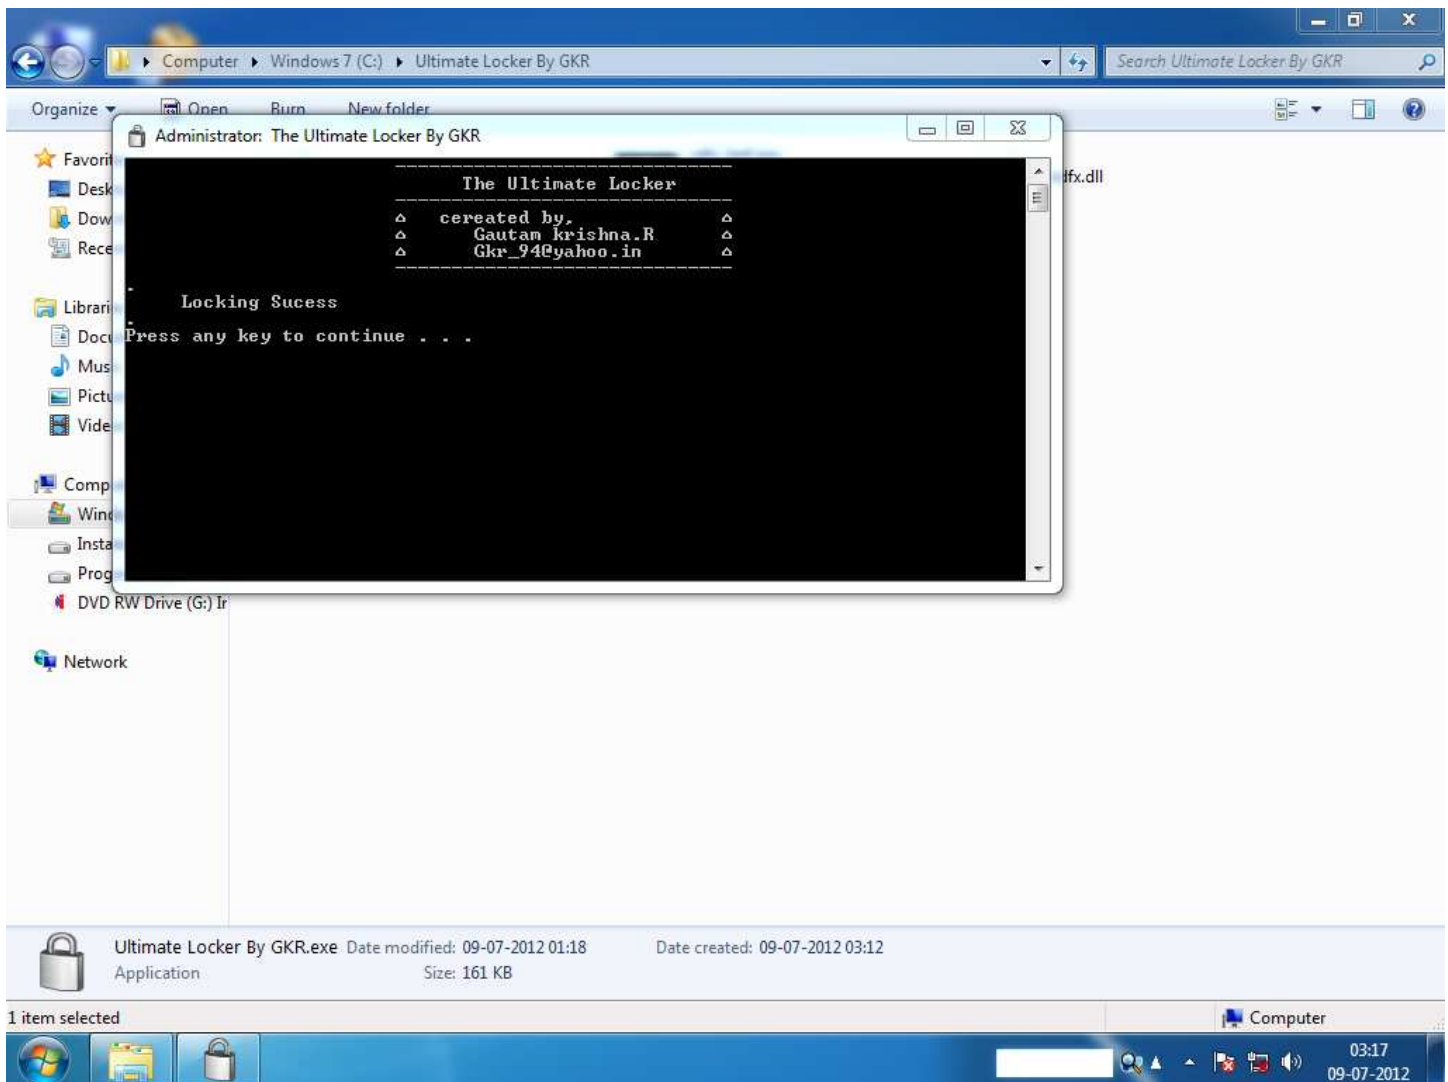

**Come back to the main folder and Run  
“Ultimate locker by GKR.exe”**

**Wait.....**

**Note: DO NOT CLOSE THE APPLICATION DURING LOCKING, THIS WILL CAUSE THE LOSS OF DATA. SO PLEASE BE PATIENT DURING LOCKING. (LOCKING MAY TAKE SEVERAL MINUTES DEPENDING ON YOUR DATAS.) YOUR DATAS ARE PROTECTED BY 256 BIT AES ENCRYPTION.**

**Wait until the app shows “locking success” message:-**

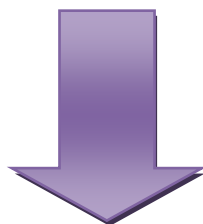

Press any key to close the app

**WOW! Let's see a magic:-**

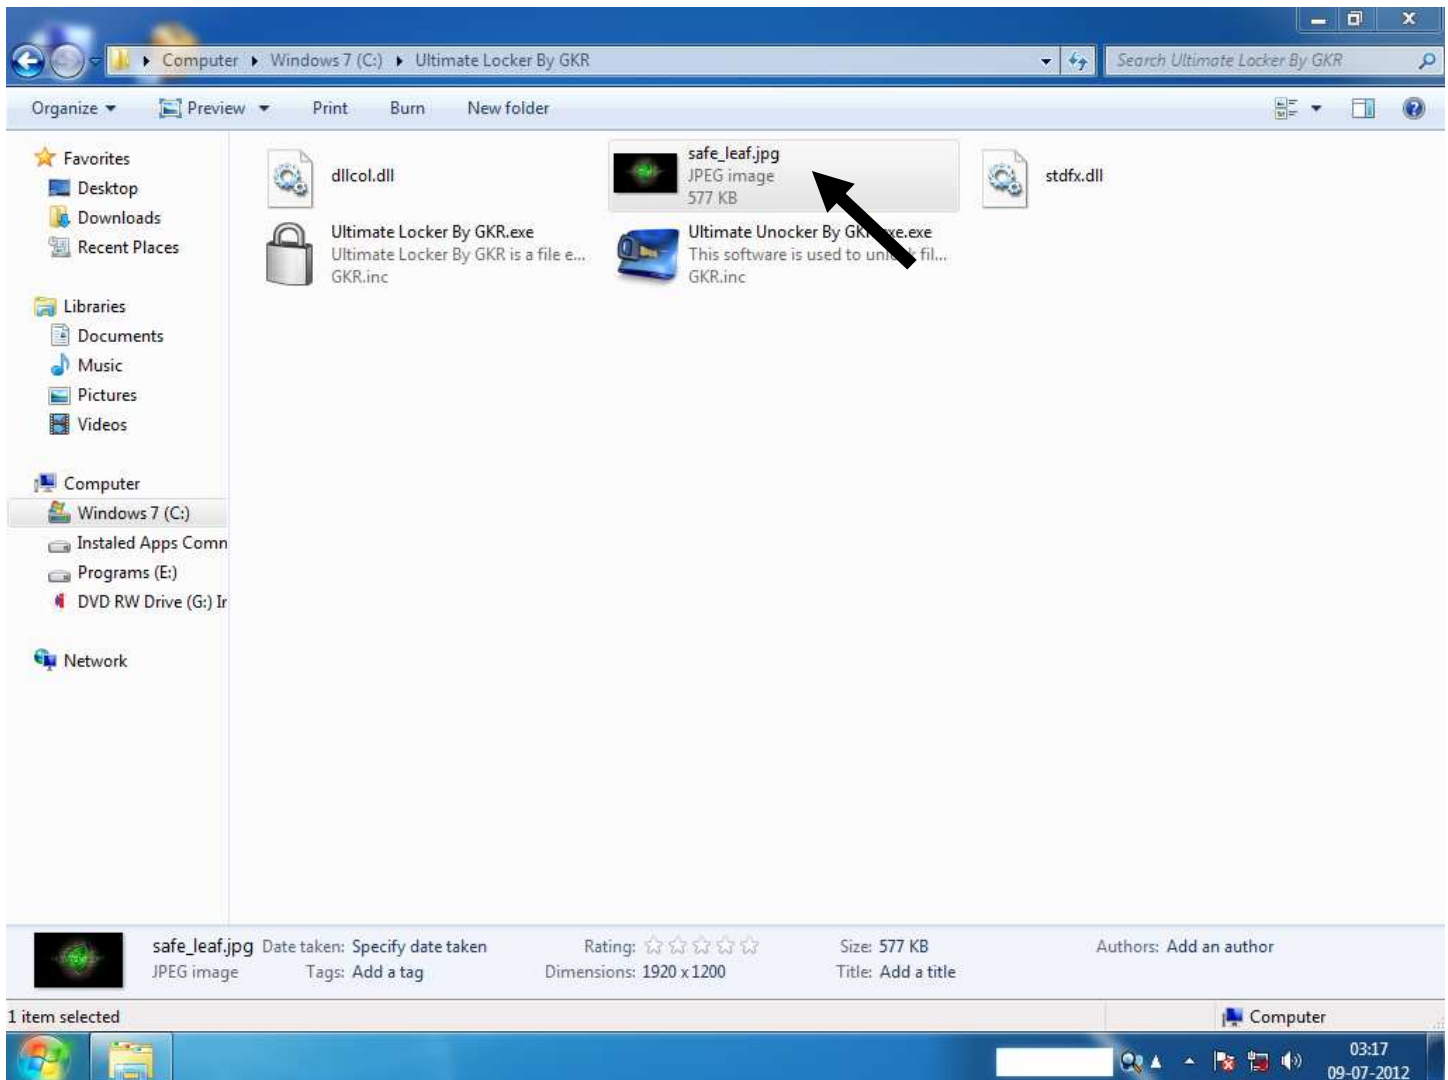

**You can now see the locker folder has been disappeared**

**Where do all your secret files gone????**

**Don't worry; your files are safely hidden inside the image**  
**“Safe\_leaf.Jpeg”**

**You can now move the image file and place it in any location you want.**

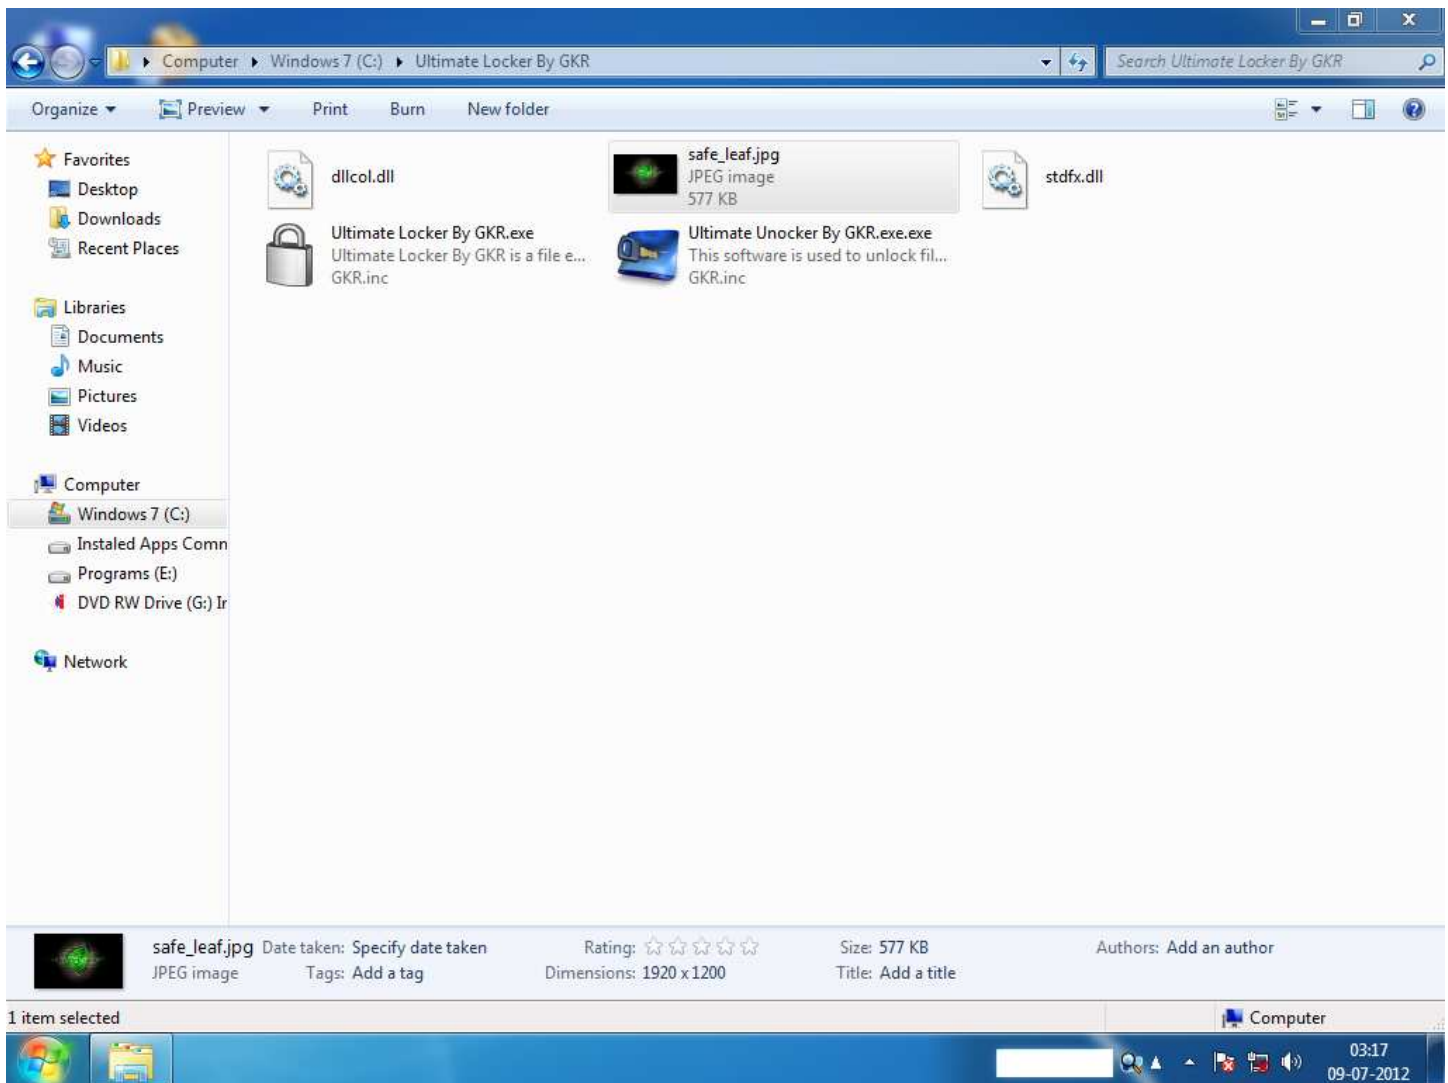

**{You can even rename it to any other name. But to unlock it, it must have the name “Safe\_leaf.jpeg”}**

---

---

# Unlocking:-

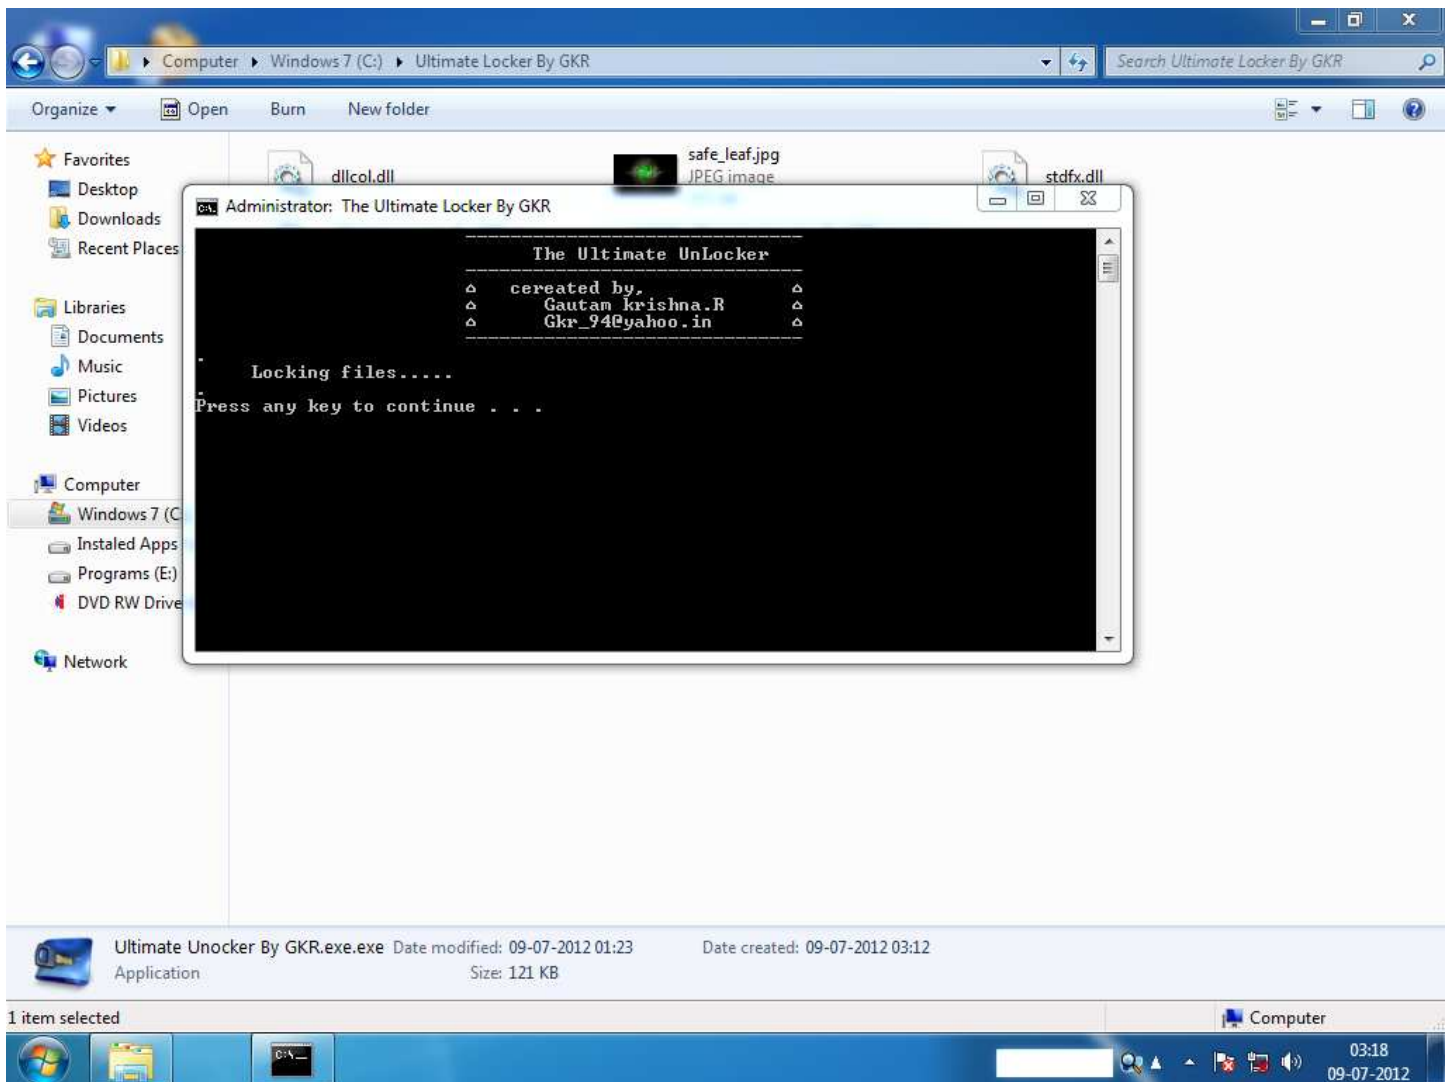

Just open the folder that contains the app

{If you have moved the “safe\_leaf.Jpeg” to any other directory, move it back to the original folder that contain the app

If you have renamed the “safe\_leaf.Jpeg” to any other name, rename it back to the original name “safe\_leaf.Jpeg”}

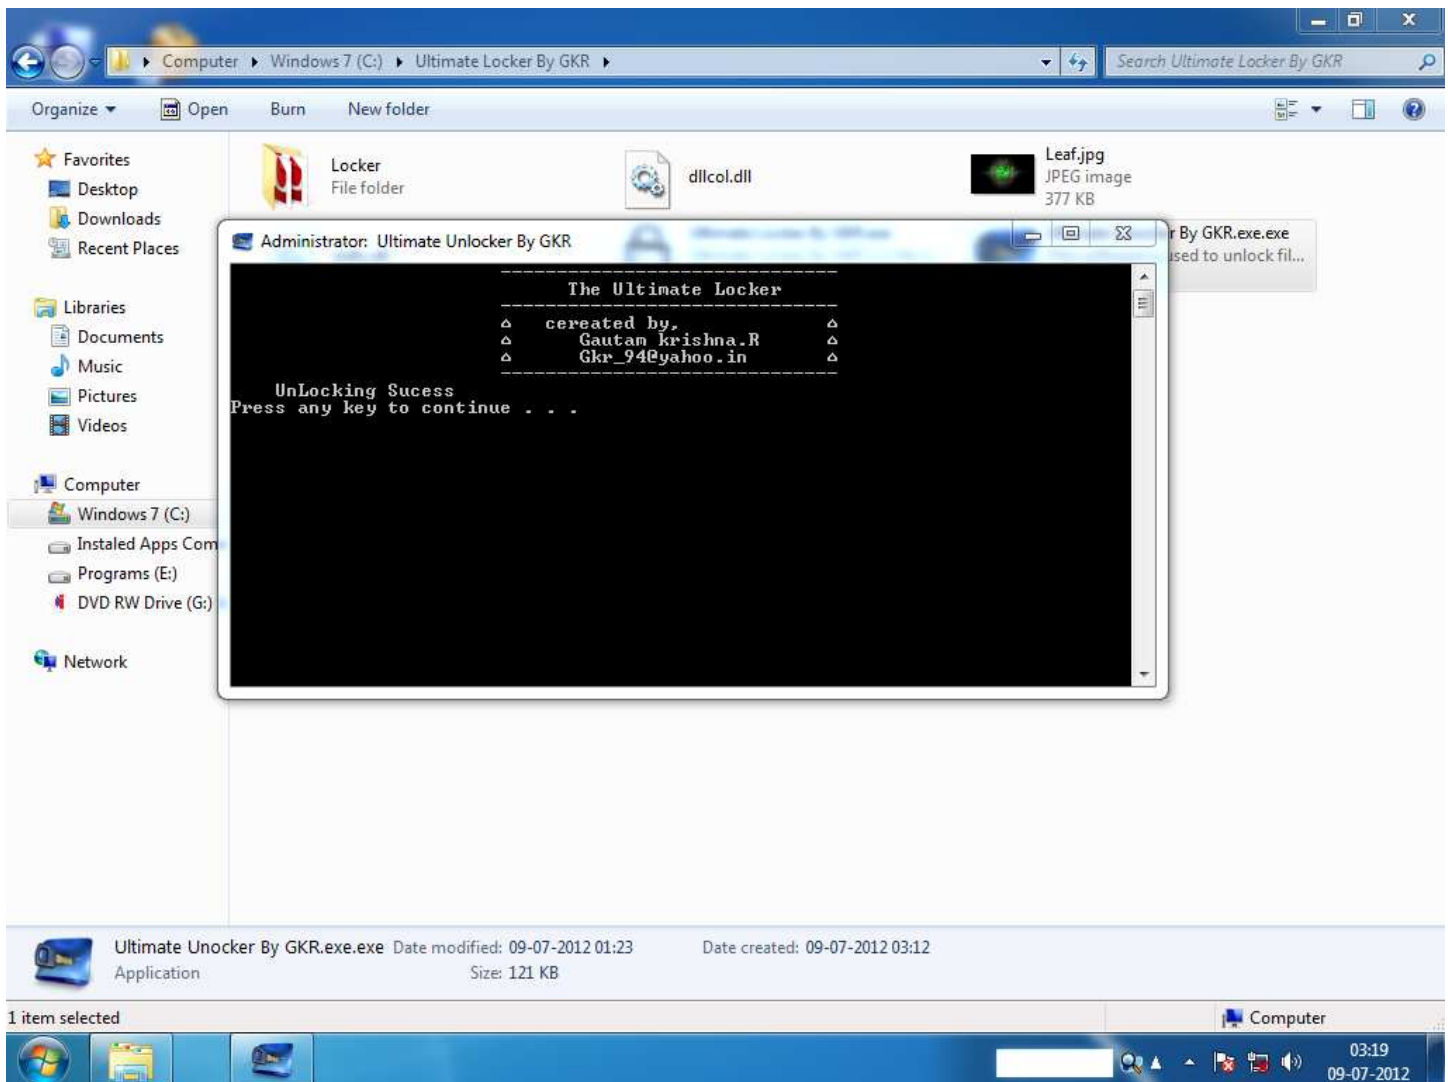

## Run the “Ultimate Unlocker by GKR.exe”

Wait.....

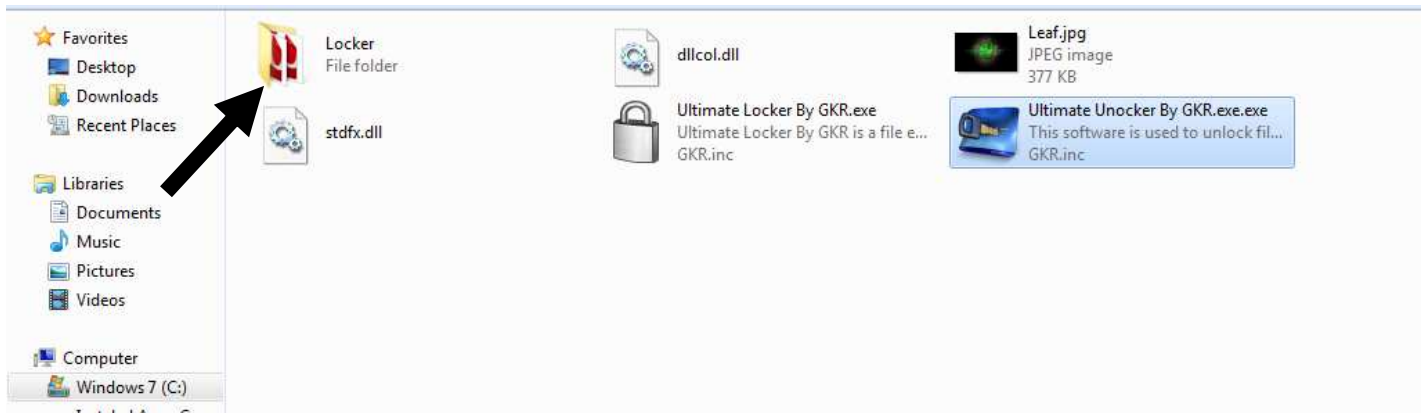

**Note: DO NOT CLOSE DURING EXECUTION**

**You can see Unlocking success message:-**

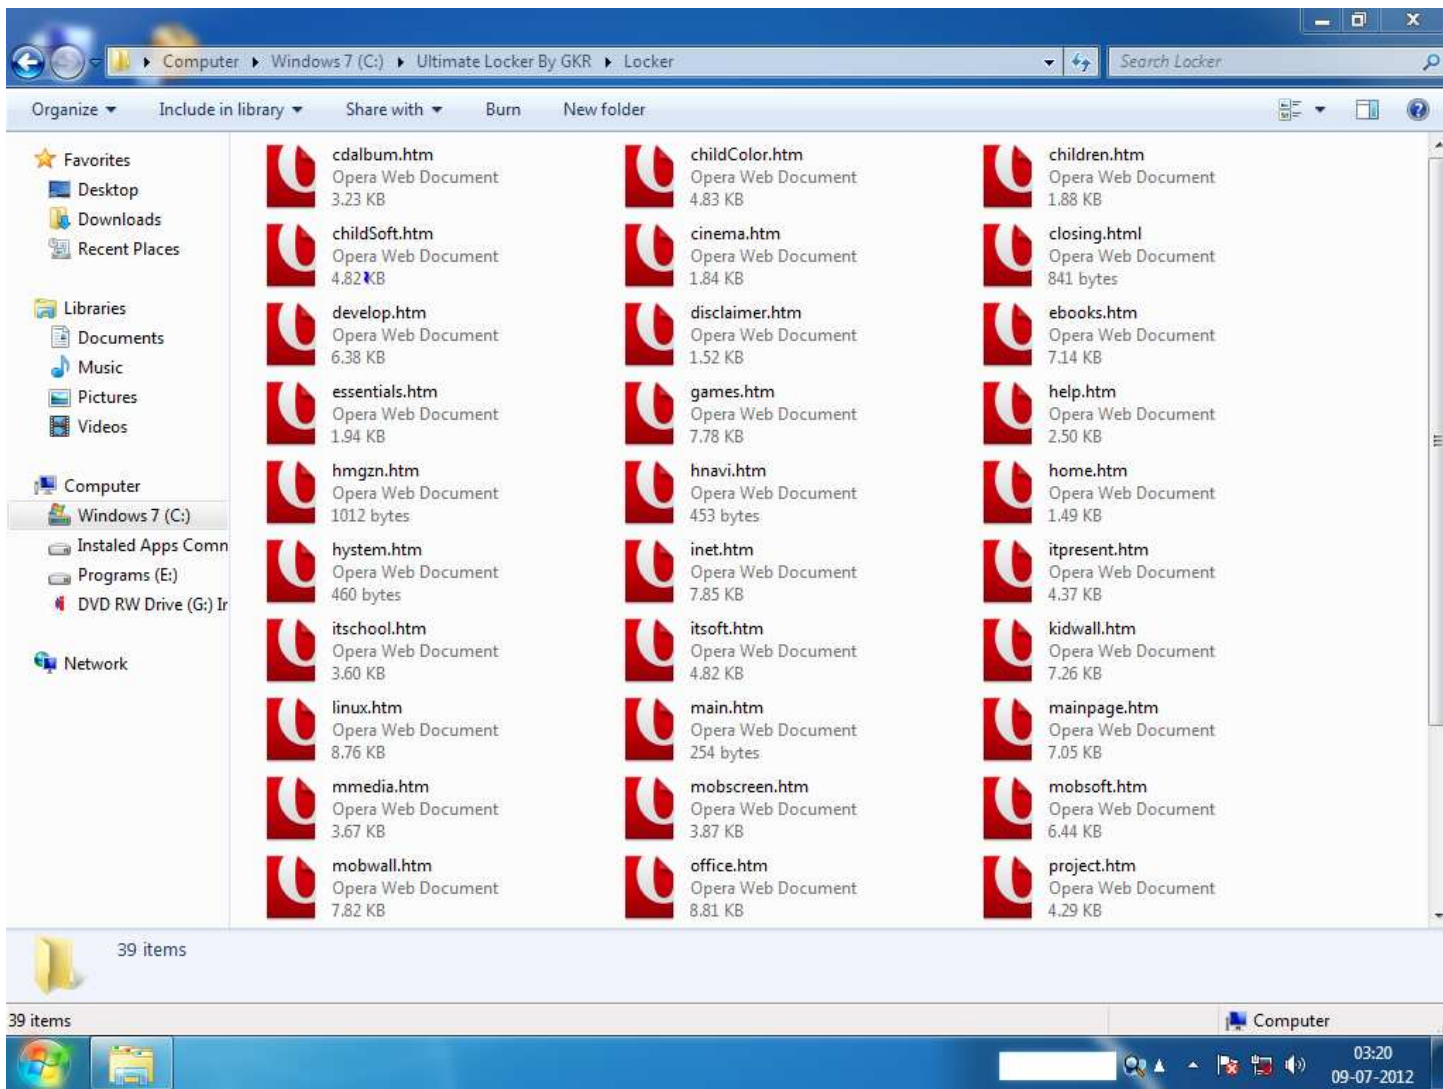

**Now you can see that:-**

- The file “safe\_leaf.jpeg “ has now disappeared and replaced with “Leaf.jpeg”
- The folder named locker reappears

Just open the folder named Locker:-

You can now see all your files.

# **Really easy isn't it??**

Now you can hide anything from your friends.

Carry it and use as an image file.

Everything has now made easy n stealthy.

Also no installation is required to use the app.

# Important notes

Even though the app is made with maximum security to your data, I couldn't guaranty its security because a computer expert can easily decode your data.

So Use this software only for hiding data. Use better encryptions for office use.

I also recommend you to Keep the app In a USB thump drive and use it only when you need it

Once again I acknowledge you that
